

About Us

Premiumbond Aluminum and Metal Composite Panels, registered by OHIM as a worldwide brand in Europe, have been manufactured through modern technologies and developed methods.

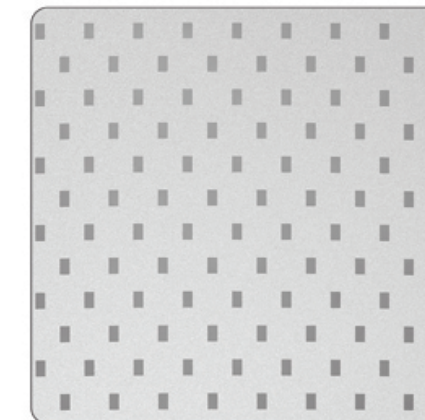

Company production lines, located in Shiraz Exclusive Economical Zone making art facility of best quality and new revolution with high quantity in the Middle East recently. They have been amplified as a worldwide brand with a large capacity of production 3,900,000 M² annually, controlled by the greatest equipped Quality Control Laboratory in the Middle East.

Premiumbond commitment to innovation, quality and value enables us to offer the widest selection of colors, textures, and finishes - and the most extensive inventory of finished products - in the industry which ISO9001/:2008 by UDEM institute and ISO14001:2004 by ICERTI institute prove these abilities.

Due to consistency of product quality, availability of versatile patterns and colors, provisions of fire resistance, anti-moisture, and toxic-free properties, environmental friendly products of Premiumbond are well received by both the domestic and international markets.
